RE Auto

Specimen Q1 is a white bond, U. S. Government, three-cent stamped envelope measuring approximately 9.5" by 4.1" and containing the watermark "US 1953." Specimens Q2 and Q3 are sheets of white paper, measuring approximately 11" by 8.4" and having no watermarks. A part of the upper portion of specimen Q2 was cut off before it reached the FBI Laboratory. The address on Q1 is hand printed in upper-case letters in blue-black ink and the message on Q2 and Q3 is hand printed in upper-case letters with a lead pencil.

Fingerprint report separately. Submitted evidence is retained.

This report supersedes air-tel from Bureau to New York, dated October 16, 1953. The figure 3 in next to the last line of Bureau air-tel to New York, dated October 16, 1953, should be changed to the figure 1 in both copies of that air-tel in your possession.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI
FROM : ATT: FBI LABORATORY
SAC, New York (9-new)

DATE: 10/14/53

SUBJECT: UNKNOWN SUBJECT;
ALFRED G. VANDERBILT - Victim
EXTORTION

Re mytel this date.

There is enclosed herewith the original two page hand printed, anonymous letter in captioned case, together with the envelope, turned over to the NYO this date by a representative of SPENCER J. DRAYTON, President, Thoroughbred Racing Protective Bureau, Inc., NYC. Also enclosed is a photostatic copy of this material.

The enclosures are described as follows:

Item One: First page of letter beginning "To Mr: ALFRED G. VANDERBILT" and ending "To earth all of us must return."

Item Two: Second page of anonymous letter beginning "And now I will show you how" and ending "By which life is made of."

Item Three: Envelope postmarked 8:30 pm, October 8, 1953, New York 7, New York, addressed to "Mr. ALFRED G. VANDERBILT, in care of WESTCHESTER RACING ASSOCIATION, 250 Park Avenue, New York 17, N.Y."

ENCLOSURE ATTACHED is requested that the enclosures be compared with the anonymous handwriting files of the FBI Laboratory; that the material be processed for any latent prints that may appear thereon; and that appropriate examination be made of the paper to determine such physical characteristics of the material that may be of investigative aid in this case.

Transmit the following message to: SAC, NEW YORK (9-1953)

UNSUB; ALFRED G. VANDERBILT - VIREX. REURLET OCTOBER 19, 1953.
NO CONCLUSION REACHED WHETHER JOHN JAMES HOLLOY PREPARED QUESTIONED
HAND PRINTING ON SPECIMENS SUBMITTED BY NEW YORK ON OCTOBER 14,
1953, AND DESIGNATED AS Q1 THROUGH Q3 BECAUSE QUESTIONED WRITING
IS WRITTEN IN UPPER CASE HAND-PRINTED LETTERS AND THE WRITING OF
HOLLOY CONSISTS MOSTLY OF SCRIPT HANDWRITING. FOR FURTHER
COMPARISON, IT IS SUGGESTED THAT ANY ADDITIONAL SAMPLES OF WRITING
OBTAINED FROM HOLLOY OR OTHER SUSPECTS CONSIST OF DICTATED WRITING
IN THE WORDING OF Q1 THROUGH Q3 PREPARED IN UPPER CASE HAND-PRINTED
LETTERS OR NORMAL UNDICTATED SAMPLES COMPARABLE TO THE WORDING OF
THE QUESTIONED SPECIMENS. KNOWN WRITING OF HOLLOY BEING RETURNED
SEPARATELY TO NEW YORK. REPRESENTATIVE PHOTOGRAPHS ARE RETAINED.
REPORT FOLLOWS.

TO : Director, FBI
 FROM : SAC, New York (9-1953)
 SUBJECT: UNSUB; ALFRED G. VANDERBILT - VICTIM
 EXTORTION

DATE: 10/19/53

The following documents are being forwarded as enclosures for examination:

1. Park and Tilford Import Corporation, Boiler Room Log, dated 9/5/52 (JOHN JAMES MOLLOY's handwriting and hand printing appears in the heading and along side of the 7 a.m. to 3 p.m. watch as well as his signature and the watch time on the reverse side).

2. Park and Tilford Import Corporation, Boiler Room Log, dated 9/2/52 (the handwriting and hand printing of JOHN JAMES MOLLOY appears in the heading and opposite the 6 a.m. to 2 p.m. watch. His signature and watch time appears on the reverse side).

3. Employee's withholding exemption certificate of JOHN JAMES MOLLOY dated 6/30/47.

4. Park and Tilford Import Corporation application for employment of JOHN JAMES MOLLOY dated 6/30/47.

It is requested that the hand printing on the above documents be compared with the hand printing appearing on the letter received by the victim in this case which was previously forwarded to the FBI Laboratory. It is requested that the NYO be expeditiously advised of the results of this examination. The documents enclosed should be returned to the NYO.

Miss Gandy _____

On October 11, 1953, the New York Office received a letter addressed to the victim in various words, including "Dear Sir," dated October 9, 1953. The letter contained in the enclosure was hand written in pencil. The letter hints out that a woman had lost some \$31,000 at the race track; she is now in a state of mind and is in a wide-spread inner circle and desires to see the race track and to be intended to receive \$100,000 in winnings for a new Vanderbilt's horses. The letter advises a scheme whereby the victim is to place an ad in the New York Journal American stating, "I will meet you tomorrow at one if Vanderbilt's horse in the first race is out to win" and "not for an airing."

The USA for the Southern District of New York states that the letter in his opinion constitutes a violation of the Federal Extortion Statute.

The letter has been received in the FBI Laboratory and specimens received of one such suspect John J. Molloy. The specimens were not comparable with the anonymous letter. The Boston Division advises that Molloy is presently confined to a state hospital for mental diseases in Rhode Island.

The New York Office advised by airtel dated October 19, 1953 that they advised the New York City Police of the threats so that protection might be afforded the victim. During this interview the New York City Police suggested that a copy of the letter in this case be furnished to them for a search through the police laboratory for possible identification of the unknown author. The New York Office airtel states that the victim has expressed himself as having no objection to the letter being furnished to the New York City police laboratory.

The New York Office requested advice as to whether a copy of the letter in this case may be furnished to the New York City police laboratory for a search through the New York City Police files and advise the New York Office if any identification is effected. New York also points out that they would stress to the NYCPD the fact that no publicity is to be had in connection with furnishing the copy of this letter.

Examination requested:

Document

Specimens:

K1 Two Park and Tilford Import Corporation, Boiler Room Logs dated 9/5/52 and 9/2/52; one employee's withholding exemption certificate dated 6/30/47; and one Park and Tilford Import Corporation application for employment dated 6/30/47, all bearing the known handwriting and hand printing of JOHN JAMES MOLLOY.

Results of examination:

This confirms and supplements Bureau's air-tel dated October 20, 1953, in this case.

RECORDED 129

OCT 30 1953

A positive conclusion was not reached as to whether the questioned hand printing on specimens Q1 through Q3 submitted by New York in this case on October 14, 1953, was prepared by JOHN JAMES MOLLOY, K1, because the questioned hand printing is written in upper-case hand printed letters and the writing of MOLLOY on K1 consists mostly of script handwriting.

9-24984-5

For further comparison, it is suggested that any additional samples of writing obtained from MOLLOY or other suspects consist

SYNOPSIS OF FACTS:

Victim received letter postmarked NY, NY, 10/8/53 addressed to him c/o Westchester Racing Association, 250 Park Avenue, NY, NY. The letter threatens bodily harm or death if victim does not advise subject when former's horses run to win in order that subject can recoup losses of \$31,000. AUSA MOLLO, SDNY advised that letter constitutes a definite threat to victim and he would consider prosecution of subject if identified. Only suspect victim could furnish was individual who sent him crank letters. This individual identified as JOHN JAMES MOLLOY who is presently incarcerated at State Hospital, Howard, Rhode Island. Hand printing on letter checked through anonymous letter file with negative results. Latent fingerprints developed on letter.

- P -

DETAILS:

This report predicated upon a letter dated October 14, 1953 from the Thoroughbred Racing Protective Bureau, Inc., advising that ALFRED G. VANDERBILT had received a threatening letter and enclosing same. This letter was delivered by a messenger.

At the time that the letter was delivered Mr. EDWARD COFFEY acting for SPENCER J. DRAYTON requested that the New York Police Department not be notified at this time concerning the necessity of taking precautions at Jamaica.

NY 9-1053

Race Track where Mr. VANDERBILT's horses were run. He requested the delay in order that he would have an opportunity to advise the victim.

On October 15, 1953 Mr. COFFEY advised Assistant Special Agent in Charge EDWARD J. MC CABE that he had contacted Mr. VANDERBILT and the New York City Police Department could be notified.

The letter was contained in an envelope addressed to Mr. ALFRED G. VANDERBILT, c/o Westchester Racing Association, 250 Park Avenue, New York 17, New York. The address of 250 Park Avenue was crossed out. The forwarding address of Westchester Racing Association, Post Office Box 21, Elmont, New York was then placed on the letter. The envelope contains no return address. It is postmarked New York 7, New York, October 8, 1953 at 8:30 P.M. The letter received by Mr. VANDERBILT in this envelope is as follows:

"To Mr. ALFRED G. VANDERBILT.

"Sir;

"As there are no alibie for failure, no pardon for ignorance, and no explanations for success:
I will eliminate all the preliminary explanation, and came right up to the point and inform you that you sir, have been chosen to assist me in a plan by which to recoup \$31,000 which I (like a fool) lost at the race track.

"I also have a plan to attack and inflict widespread distruction and death at the race track
The victims of such an attack of couse will be the occupants of the administration building, the public at large, the jockeys, and eve the innocent horses, wile they are in the ppossess of racing.
And how! Am I to succide in carrying out such a fantastic plan to a conclusion? You may ask.

"Sir; it is not hard for an ordnance officer in the U. S. Army to put a mortar and it's appropriate shells (50 of them) in the trunk comparment of his car, etc.
And although I'm no longer in active duty it still is less harder for me to make nine (9) bulls eyes out of ten (10) bursts and having a large area for a target such as the grand stand and the club house I'm sure, the score will be

9 24-994 - 12

NY 9-1953

ten (10) bulls eyes out of ten (10) bursts.
Even from a moving vehicle

"As for you sir, if you are still alive after I have become ominously famous, by killing perhaps hundreds of innocent suckers I shall expose my identity by having you sir, as my companion in death.

"In summerising the whole idea sir, assist me to recoup my financial liberty, or I shall give death to you and hundreds more.

"This is a declaration of one man's war against the unscrupulous manipulations that are going on at the race track.

"Do you fear death? Do not.
For death is only a form of debt
Which all of us will pay back to earth
As from earth all of us sprung
To earth all of us must return.

"And now I will show you how the pre-mentioned catastrophe can easily be avorted by you sir.

"For instance if you enter one of your horses in the third race of tomorrow with definite purpose to win the race (not airing) you merely put an ad in the classified ad's page of the N.Y. JOURNAL AMERICAN-which ad will be under the classification of SCURRUSCU such as follows.

"Scurruscu I see you tomorrow at 3: 0'clock.

"If you have two (2) horses going out for a win at the same day one of which is entered in the third race and the other in the fifth race, the ad will read, thus,

"Scurruscu I see you tomorrow eather at 3: or at 5: 0'clock.

"If you have three horses going out for a win at the same day one of which will compete in the second-fourth-and seventh races respectively then the ad will read in the following manner.

"Scurruscu see me tomorrow eather at 2: or at 4: 0'clock.

9- 24³984 - 12

NY 9-1953

b6
b7C

"If you can't make it, I'll see you at 7: o'clock. In other words the number of the race or races on which your horses are competing will be the time you will see me or I'll will see you

"It's easy isn't?

"Do not try anything as there is nothing you can do to lure me into a trap. On the contrary that would make me commence the action of terror.

"My wager will never be more then \$50 as I don't intent to make myself conspicuous. I will do nothing which you may suggest so do not suggest, just oblige.

"When the time comes that I will have my \$31.000 in my possession I shall then, sent you onothe letter in which I will inform you to the where obouth of my miniature arsenal so you may dispose of as you please sir.

For then I will have no forther use for such weapons. And you of couse, don't have to put any more ad's in the Jornal American.

"Do you love life?
Then do not squander time;
For time is the element
By which life is made of."

AUSA SILVIO J. MOLLO, Southern District of New York, was furnished the contents of the above-mentioned letter by SA [redacted] Mr. MOLLO advised that in his opinion the anonymous letter constitutes a definite threat to the victim and that he would consider prosecution of the subject if the latter were identified.

By letter dated October 14, 1953 the above-mentioned letter was forwarded to the FBI Laboratory.

On October 16, 1953, ALFRED G. VANDERBILT, World Veterans Fund, Inc., Room 517, 345 East 46th Street, New York, New York, telephone MUrrayhill 2-3655, advised SAS [redacted] that the anonymous letter was handed to him unopened on Monday afternoon October 12, 1953

9-24300-12

b6
b7C

NY 9-1953

at Jamaica Race Track by his trainer [redacted]
He stated that [redacted] had received the letter in the
mail that morning at Belmont Park Race Track.

Mr. VANDERBILT explained that his stable is
maintained at Belmont Park and [redacted] is in charge.
As of that date Mr. VANDERBILT's horses were racing at
Jamaica Race Track but were stabled at Belmont Park.

Mr. VANDERBILT stated he opened the letter and
read it. After reading it he turned it over to [redacted]
[redacted] a representative of the Thoroughbred Racing
Detective Bureau, Inc. Mr. VANDERBILT did not know who
might have handled the letter and envelope after he gave it
to [redacted]. He did not know who handled the envelope
before it was opened by himself other than [redacted]

Mr. VANDERBILT informed that the hand printing
was not familiar to him and that he had no suspects whatsoever.
He knew of no disgruntled employees. He has had no trouble
with anyone and knew of no veteran who might have been a
former army officer who had sustained any big losses by
wagering on horse races. Mr. VANDERBILT characterized the
letter as a crank letter in all probability. His first
impulse had been to tear it up. He did not give any
consideration to complying with the demands set out in the
letter that he place an advertisement in the New York Journal
American.

Mr. VANDERBILT pointed out the incorrect and
poor spelling although noting that the writer claimed to
be a former Army officer. He stated that the writer
probably was not familiar with racing procedures. In Mr.
VANDERBILT's opinion the writer is not an employee of any
of the race tracks nor a former employee. His opinion is
based upon the fact that the writer indicates a belief that
Mr. VANDERBILT is able to predict when his horses will win
which is definitely untrue. Mr. VANDERBILT explained that
entries for a race must be submitted prior to 10:30 A.M.
on the day before the race. At the time the entry is sub-
mitted no one knows the numerical order of the races to
be run. After all the entries are in the track authorities

9-24934 -12

NY 9-1053

arrange the order of the races from the standpoint of endeavoring to provide the best public attraction. Mr. VANDERBILT informed that it would be possible to know the number of the race if necessary by contacting the authorities who as a favor to him would be able to tell him the order of the races, probably about 11:00 A.M. on the day before the race. Ordinarily this is not done. He advised that he would be willing to place an advertisement in the New York Journal American as directed in the letter if it would be of investigative assistance. Mr. VANDERBILT was reluctant to place such an ad unless it was absolutely necessary.

He explained that the very fact that he had put an ad in the paper could be construed as an admission that he actually can predict when his horses can win. If such a horse would win it would only strengthen the insinuation that he does not always try to have his horses win. He emphasized the fact that all his horses try to win. He also pointed out that the ad would be particularly embarrassing in the event of any newspaper publicity or even if the information was made public by the subject among race track followers and associates.

Mr. VANDERBILT reiterated that he places no credence in the letter that is he does not believe the writer has any intention of carrying out the threat. He believes a crack-pot wrote the letter which is indicated by the rambling nature, text and fact contained in the letter. He also added that it is inconceivable that anyone could expect to recover \$31,000 by betting on tips placed in newspapers.

Mr. VANDERBILT promised to immediately notify the New York office if additional letters or other types of communications were received by him.

The only other past circumstance of a similar nature that he could recall was a series of crack-pot letters received by him from an individual whose name he did not know and who is believed to have been subsequently arrested and jailed. He suggested that Mr. DRAYTON would be able to furnish

NY 9-1953

the name of this individual.

b6

b7C

Mr. VANDERBILT stated that he had no objection to any investigation by the New York Police Department if they so desired although he did not feel it was necessary in view of the type of letter. His principal concern is to avoid publicity. He stated that if the New York Police Department requested a copy of the letter he could see no reason why they should not be furnished with a copy.

On October 27, 1953 [redacted] for ALFRED G. VANDERBILT, barn 20, Belmont Park Race Track, Elmont, New York, telephone PRImrose 5-2122, residence FieIdstone 7-1407 advised the writer he had received the above-mentioned anonymous letter in the mail and turned the letter over to Mr. VANDERBILT at the Jamaica Race Track. Ordinarily if the mail does not appear to be personal [redacted] opens it. In this case he did not recognize the hand printing and it did not seem to be any of the usual type of mail so he did not open it.

He advised the handprinting on the letter is unknown to him and he has no recollection of ever having seen a similar type of handprint. No one with the background of an Army officer known to him would write such a letter.

He stated that the writer could not be any of Mr. VANDERBILT's employees or any of the track employees because they would know the ~~entire~~ and would not have to depend upon the newspapers. [redacted] informed that judging from the contents of the letter that the writer was not familiar with racing and in particular was not familiar with the VANDERBILT stables. He advised that the VANDERBILT stable is not a "betting stable." He also pointed out that any one familiar with racing would know that the VANDERBILT horses are stabled at Belmont Park Race Track and would be familiar with the address and location of the track.

[redacted] explained that Mr. VANDERBILT was formerly President of the Westchester Racing Association.

9-24904-12

NY 9-1953

The address appearing on the envelope gives the impression that the writer obtained it from a Manhattan telephone directory.

[redacted] advised that all entries are entered to run and do their best. On a particular day they might have one winner and the other horses entered would finish out of the money. On other days there might be more than one winner. [redacted] cannot predict with any accuracy the winners of any particular race. He did point out as a possible exception Native Dancer which has been unusually successful..

[redacted] pointed out that the writer of the letter might be familiar with horse racing from the standpoint of a handbook better. [redacted] stated it would be possible to know by 11:30 A.M. on the day before a race the order of the races. He volunteered the opinion that he did not think that that would be sufficiently early enough to place an advertisement in a newspaper for publishing that day although he felt it could be inserted for the early editions on that day of the race.

[redacted] advised that the word "scurruscu" did not have any significance to him nor did he know of anyone with such a nickname. He advised that Mr. VANDERBILT is leaving for Europe about the first of November. In the event that any similar-type letters are received he will immediately forward them to the New York office. He stated he would also be alert for a possible telephone contact from the anonymous writer. He added that the closing of the Jamaica Race Track will see Mr. VANDERBILT's horses running in California.

On October 19, 1953 [redacted] Thoroughbred Racing Detective Bureau, Inc., 405 Lexington Avenue, New York City, advised that during February 1952 Mr. and Mrs. VANDERBILT had received a series of annoying telegrams. The telegrams were all signed JOHN MOLLOY and also gave his address as 3040 Waterbury Avenue, Bronx, New York. During the summer of 1953 these telegrams were resumed. [redacted] ascertained that MOLLOY had been

- 8 -
9 - 24934 - 12

b6
b7C

NY 9-1953

staying at the Hotel Westerly, Westerly, Rhode Island. On August 20, 1953 MOLLOY appeared at the Westerly Police Department at approximately 11:15 A.M. at which time MOLLOY was temporarily detained. MOLLOY was then examined by Dr. HENRY B. GRANGER and Dr. FREEMAN BRUNO AGNELLI who found MOLLOY insane and had him committed to the State Hospital for Mental Diseases, Howard, Rhode Island. [redacted]

b2
b6
b7C

[redacted]
[redacted] Park and Tilford Distillers Corporation, 543 West 43rd Street, New York City, advised that JOHN JAMES MOLLOY, 3040 Waterbury Avenue, Bronx, New York, Social Security No. [redacted] had been employed from June 30, 1947 until September 29, 1952 as a power plant engineer. The record reflects that MOLLOY was released with the notation "Do not rehire."

[redacted] advised that JOHN JAMES MOLLOY [redacted] He stated that MOLLOY used to frequent race tracks and would take airplane trips over a weekend just for the purpose of seeing horse races. Allegedly when MOLLOY's father died he left MOLLOY \$50,000 and a house. [redacted] advised that the circumstances surrounding MOLLOY's release arose from the fact that he sent a telegram to [redacted] of the Tintex Division of Park and Tilford. [redacted] informed that he believes MOLLOY also wrote a letter to [redacted] of the American Federation of Labor or some other high labor union personnel which [redacted] believes [redacted] MOLLOY some difficulty in Local 94 of the engineers.

MOLLOY was described as single and living with a married sister. [redacted] stated MOLLOY was a fanatic on the question of patriotism and religion.

[redacted] made available two Boiler-room logs dated September 2nd and 5th, 1952, which contained the handwriting and handprinting of JOHN JAMES MOLLOY.

- 9 -
C- 24984 - 12

b6
b7C

NY 9-1953

[redacted] Park and Tilford Distillers, Inc., 485 Fifth Avenue, New York, New York, made available the original application of JOHN JAMES MOLLOY at the time he was employed.

By letter dated October 19, 1953 the above-mentioned boiler room logs, application and withholding certificate of JOHN JAMES MOLLOY were forwarded to the FBI Laboratory.

[redacted]
[redacted] had moved into the premises on July 15, 1953. The address is a two-family house and each of these two women occupies an apartment with their family. They did not know JOHN JAMES MOLLOY nor did they know the names of the former occupants of the building.

[redacted]
The mother of ANNA MOLLOY and JOHN MOLLOY died in 1945. The father died in 1949. [redacted]

[redacted] They advised that JOHN MOLLOY is confined to the State Hospital, Howard, Rhode Island and has been there since approximately August 20, 1953 as a mental patient undergoing shock treatments.

[redacted] stated that approximately two weeks prior to the interview she signed papers approving of a transfer of JAMES MOLLOY from Rhode Island to New York State.

JOHN MOLLOY has never had any military service. They advised that he was very much interested in horse races and had made trips to Baltimore, Narragansett, Cleveland and Chicago. JOHN MOLLOY traveled by bus, plane and train. In connection with MOLLOY's interest in horse racing [redacted]

NY 9-1953

[redacted] advised that MOLLOY had had VANDERBILT on his mind for the past couple of years. They stated that MOLLOY has an obsession that the VANDERBILTS are bothering him and following him. [redacted] pointed out that anyone dressing in the same colors as the VANDERBILT stable were observed by MOLLOY and the latter would be beside himself saying that the wearer was working for VANDERBILT. [redacted] stated that if the subject matter of the interview concerned letters written to the VANDERBILTS she would not doubt that [redacted] had sent them. However, she pointed out that in the past [redacted] had always signed his name and given his address. She also mentioned that she never knew [redacted] to print; that he always wrote in script.

b6
b7C

Until September 1952 JOHN MOLLOY had worked for Park and Tilford. Prior to working for Park and Tilford, he worked for his father who was the building custodian at PS 55, Washington Avenue, Bronx, New York. During the summer of 1951 JOHN MOLLOY made a trip to Ireland. They also described MOLLOY as being afraid of cops in the sense that he would never run away from them. He has gone to the local precinct when he has felt that the police were looking for him. They advised that JOHN MOLLOY had never been arrested to their knowledge; he always gave his true name and address whenever questioned by police or others. He attended elementary school only.

By teletype dated October 20, 1953 the Boston office advised that JOHN JAMES MOLLOY was adjudged insane on August 20, 1953 in proceedings at Westerly, Rhode Island and committed to the State Hospital for Mental Diseases, Howard, Rhode Island. MOLLOY was still a patient at that hospital as of that date.

On October 23, 1953 [redacted] telephonically advised the writer that a letter had been received from JOHN MOLLOY at the Park and Tilford plant, West 43rd Street, New York City.

[redacted]
Tintex Division, Park and Tilford Company, 543 West 43rd Street, advised that a letter had been received from JOHN MOLLOY addressed to the company and postmarked Howard, Rhode

2-11-53

NY 9-1953

Island, October 19, 1953. The letter itself was addressed to [redacted] In the letter MOLLOY explains that he is confined in a hospital in Rhode Island and states he is improving and indicated that he has to get his engineer's license from Park and Tilford. The letter is signed JOHN MOLLOY.

This letter is being forwarded to the FBI Laboratory in order that the paper and envelope can be compared with the paper and envelope in the anonymous letter.

[redacted]
described MOLLOY as being interested in racing and stated they have not heard of him since he left the employment. They described him as being very religious.

The FBI Laboratory by letter dated October 22, 1953 advised that the handprinting on the anonymous letter was searched through the appropriate sections of the anonymous letter file with negative results.

The envelope is a white bond U. S. Government 31 stamped, water marked "US 1953." The two sheets of writing paper measure approximately eleven inches by eight and four tenths inches and have no water mark. A portion of the first page was cut off. Five latent fingerprints were developed on the envelope and 2 latent fingerprints were developed on the second page of the letter and 1 latent fingerprint on the first page.

b6
b7C

By letter dated October 23, 1953 the FBI Laboratory advised that a positive conclusion could not be reached as to whether or not JOHN JAMES MOLLOY handprinted the anonymous letter because the handprinting in the anonymous letter is in upper case handprinted letters and the writings of MOLLOY submitted to the Laboratory consisted mostly of script writings.

On November 2, 1953 the specimens furnished by

[redacted]
[redacted] were returned.

- 12 -

9-24984 - 12

NY 9-1953

On October 15, 1953 SA [redacted] furnished [redacted] of the New York City Police Department with the necessary information concerning possible precautions at Jamaica Racetrack in view of the unknown subject's threats. [redacted] requested a copy of the anonymous letter.

On October 27, 1953 a photographic copy of the anonymous letter was furnished to [redacted] by SA [redacted]. The [redacted] turned the letter over to [redacted] and instructed him that no publicity was to be given to this matter; that the letter was to be searched through the Police Department files and that if any identification was made through the handprinting, the New York office of the FBI be advised. [redacted] also advised the New York City Police Department would make no investigation. He requested that the department be advised upon the completion of this case.

b6
b7C

After previous negative effort, on November 16, 1953 [redacted] advised SA [redacted] that he has not been advised of the results of the check of the handprinting. Due to the fact that he has not heard he believes no identification was effected; however, he will definitely ascertain whether or not an identification was made.

Descriptions

The following is a description of ALFRED G.

VANDERBILT:

Race	White
Sex	Male
Age	39
Height	5'10"
Weight	155
Build	Slender
Hair	Black
Eyes	Brown
Complexion	Medium
Marital Status	Married
Residence	Broad Hollow, Jericho, Long Island, New York
Business	World Veterans Fund, Inc. 345 East 46th Street, Room 517 New York City

-13 4384 -12

NY 9-1953

The following is a description of JOHN JAMES
MOLLOY as obtained from the records of Park and Tilford:

Race	White
Sex	Male
Age	54
Date of Birth	August 17, 1899
Height	5'7"
Weight	185
Hair	Brown fringe on sides, completely bald on top
Eyes	Brown
Complexion	Unknown
Occupation	Maintenance engineer

DETAILS:

Colonel Administrative Division, New York Regional Office, Veterans Administration, 252 Seventh Avenue, New York City, and Brooklyn Regional Office, Veterans Administration, 250 Livingston Street, Brooklyn, New York, advised that all their records are filed by claim number and it would be impossible to search for former ordinance officers without causing a search of all records in their possession. They both stated that due to the paucity of information at present, such a search would not be practical.

 City Police Department, advised SA New York anonymous threatening letter was searched through the files of the Police Department and no identification was made.

REPORT MADE AT NEW YORK	DATE WHEN MADE 12/21/53	PERIOD FOR WHICH MADE 12/15/53	REPORT MADE BY <div style="border: 1px solid black; height: 20px; width: 100%;"></div>
TITLE UNKNOWN SUBJECT: ALFRED G. VANDERBILT - VICTIM			CHARACTER OF CASE EXTORTION

SYNOPSIS OF FACTS:

Handprinting of JOHN JAMES MOLLOY examined by FBI Laboratory but no conclusion reached. Letter postmarked 10/19/53 written by MOLLOY to former employer was written on paper different from that used in anonymous letter, according to FBI Laboratory.

- From envelope 12/30/53
copy

DETAILS:

By letter dated October 23, 1953 the FBI Laboratory advised that a positive conclusion could not be reached as to whether JOHN JAMES MOLLOY had prepared the handprinting in the anonymous letter because there was insufficient handprinting in the documents prepared by MOLLOY.

By letter dated December 3, 1953 the FBI Laboratory advised that the envelope postmarked "Howard, Rhode Island, dated October 19, 1953, and addressed to Park and Tilford Company which contained a letter beginning Dear [redacted] and signed JOHN MOLLOY, was on paper different from that used in the envelope which contained the extortion letter. The paper on which the letter itself was prepared was different from the paper in the extortion letter.

TITLE UNSUB: ALFRED G. VANDERBILT - VICTIM			CHARACTER OF CASE EXTORTION

SYNOPSIS OF FACTS:

Handprinting specimens obtained from JOHN MOLLOY, patient at Rhode Island State Hospital for Mental Diseases. MOLLOY denies being author of instant letter to Victim. Writing paper of description furnished for instant letter not available to patients according to hospital doctor. Handprinting specimens forwarded to FBI Laboratory.

- RUC -

DETAILS:

AT HOWARD, RHODE ISLAND

Dr. GABRIEL NAJERA, Adolf Meyer Building, Rhode Island State Hospital for Mental Diseases, who has direct supervision over patient, JOHN MOLLOY, advised that MOLLOY has recently received a full course of twenty shock treatments with partial results. His fixation relative to persecution by the VANDERBILT family appears to have been dissipated. He doesn't discuss them any more and states he has never been persecuted by them, according to Doctor NAJERA. MOLLOY'S general condition has deteriorated and his personality is impaired, the Doctor stated, adding that his diagnosis continues to be "Schizophrenic - Paranoid type." MOLLOY is very preoccupied with religion and is quite confused.

MOLLOY, in the presence of Special Agent and the reporting Agent, and in response to preliminary questions by Doctor NAJERA, stated that he had never met Mr. and Mrs. VANDERBILT and knew them only by sight. He stated that he had no ill feeling toward them and that they had never persecuted him.

APPROVED AND FORWARDED: <div style="border: 1px solid black; width: 100px; height: 1.2em; display: inline-block;"></div>	SPECIAL AGENT IN CHARGE	DO NOT WRITE IN THESE SPACES

BS 9-766

MOLLOY stated to reporting Agent that he had written a letter to Mr. VANSEBILT a long time ago but that he has not written any letter to him since he has been at the hospital at Howard, Rhode Island. He further stated that at no time has he ever handprinted any letter to any one. He explained that he always writes in large script. He stated that he has never done any handprinting but indicated his willingness to furnish samples of it. Seven sheets of paper containing specimens of MOLLOY'S handprinting were obtained. He was given the opportunity of using pencil, indelible pencil, ball point pen and steel point pen. The specimens comprise words misspelled in instant threatening letter and words appearing on the envelope together with quotations from instant letter. In view of the condition of MOLLOY only limited specimens were obtained. These specimens have been forwarded to the Federal Bureau of Investigation Laboratory for comparison examination, together with a white envelope of the type available to and actually used by MOLLOY. This envelope bears pencil script writing of MOLLOY.

Dr. PAJEPA advised that no writing paper fitting the description furnished of instant threatening letter was available to the hospital patients nor could they obtain it anywhere in the hospital. Numerous samples of MOLLOY'S handwriting in the form of censored mail and all maintained in his medical file, was determined to be in large script type writing. The Doctor stated that he knew of no instance when MOLLOY had done any handprinting.

Letter 1/20/53

EX-101

Examination requested:

For record

Specimens:

K3 Nine pieces of the known hand printing of JOHN OLNEY.

K4 One envelope of the type available to JOHN OLNEY and bearing penciled handwriting.

ALSO SUBMITTED: One blank white envelope and one blank manila envelope.

Results of examination:

This confirms and supplements Bureau's air-tel dated January 4, 1954, in this case.

No positive conclusion was reached as to whether the questioned hand printing on specimens 1 through 13 submitted by New York in this case on October 12, 1953, was prepared by JOHN KOLLOX, whose additional hand printing is designated as K3, because there are variations in style of hand printing between the known and questioned specimens. From the examination conducted, characteristics were noted in the printing which suggest that consideration be given to the securing of hand printed samples from any other local subjects, if further examination is desired.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI (9-2498)

DATE: December 28, 1953

FROM : SAC, Boston (9-766)

ATTENTION: FBI LaboratorySUBJECT: UNKNOWN SUBJECT;
ALFRED G. VANDERBILT-VICTIM
EXTORTION
(NEW YORK CO)

Re letters dated October 22, 23, 1953 from FBI Laboratory to New York.

There are enclosed herewith nine sheets of paper containing specimens of the handprinting of JOHN ~~MOLLOY~~, patient at the Rhode Island State Hospital for Mental Diseases, Howard, Rhode Island. As is indicated on the reverse sides of these sheets, specimens were obtained using pencil, indelible pencil, ball point pen, and steel point pen. The specimens comprise words misspelled in instant threatening letter to the Victim, quotations from the letter, and words appearing on the envelope containing the letter. The paper used to obtain these specimens was furnished by investigating Agents. No paper fitting the description of that of instant threatening letter was available at the hospital.

It is requested that the above-mentioned handprinting specimens be compared with the handprinting in instant threatening letter.

There is also enclosed one white envelope of the type available to and actually used by MOLLOY at the Hospital. This envelope bears pencil script writing of MOLLOY. It is requested that this envelope be compared with the envelope in which instant threatening letter was enclosed to determine if they are of the same type.

The results of the above-requested examination should be furnished to the New York Office.

DATE: 11/11/61

SECRET

... 2010 ...

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1960. At the same time, the population of rural areas has decreased from about 100 million in 1900 to about 50 million in 1960. This has led to a concentration of the population in urban areas, which has had a number of important consequences. One of the most important is that it has led to a change in the way of life of the majority of the population. In rural areas, the population has traditionally been engaged in agriculture, and the way of life has been based on the rhythms of the seasons. In urban areas, the population has traditionally been engaged in industry and commerce, and the way of life has been based on the rhythms of the clock. This has led to a number of differences between the two ways of life, including differences in the amount of leisure time, the amount of social contact, and the amount of participation in community activities. These differences have led to a number of problems, including the problem of social isolation, which is a major problem in urban areas. This is a result of the fact that the majority of the population in urban areas is now living in high-rise apartment buildings, which are often designed in a way that makes it difficult for people to interact with their neighbors. This has led to a sense of isolation and a lack of community spirit, which are both major problems in urban areas. Another important consequence of urbanization is that it has led to a change in the way of life of the majority of the population. In rural areas, the population has traditionally been engaged in agriculture, and the way of life has been based on the rhythms of the seasons. In urban areas, the population has traditionally been engaged in industry and commerce, and the way of life has been based on the rhythms of the clock. This has led to a number of differences between the two ways of life, including differences in the amount of leisure time, the amount of social contact, and the amount of participation in community activities. These differences have led to a number of problems, including the problem of social isolation, which is a major problem in urban areas. This is a result of the fact that the majority of the population in urban areas is now living in high-rise apartment buildings, which are often designed in a way that makes it difficult for people to interact with their neighbors. This has led to a sense of isolation and a lack of community spirit, which are both major problems in urban areas.

REPORT MADE AT NEW YORK	DATE WHEN MADE 2/5/54	PERIOD FOR WHICH MADE 1/28/54	REPORT MADE BY <div style="border: 1px solid black; height: 20px; width: 100%;"></div>
TITLE ALFRED G. VANDERBILT - VICTIM			CHARACTER OF CASE EXTORTION

b6
b7C

SYNOPSIS OF FACTS: Additional handwriting specimens of JOHN JAMES MOLLOY submitted to FBI Laboratory without effecting any identification.

- C -

DETAILS: By letter dated December 28, 1953 the Boston Office submitted nine sheets of paper containing samples of the handprinting of JOHN JAMES MOLLOY, who was then a patient at the Rhode Island State Hospital for Mental Diseases at Howard, Rhode Island. No paper fitting the description of the paper used in the instant anonymous letter was available at the hospital.

By letter dated January 7, 1954 the FBI Laboratory advised that no positive conclusion was reached as to whether the handprinting in the anonymous letter was prepared by JOHN JAMES MOLLOY because there are variations in the style of handprinting between the handprinting on the anonymous letter and the handprinting of JOHN JAMES MOLLOY. The Laboratory did note from characteristics in the handprinting which suggested that handprinting samples from other logical suspects be obtained if further examination is requested.

In view of the fact that JOHN JAMES MOLLOY was the only possible suspect mentioned by the victim and no other logical suspects have been developed, this case is being closed upon the authority of the Special Agent in Charge.
